

Clanking Chains: Lucifer's Global Conspiracy: His Strategy of Compartmentalization; Co-opting Crusaders

- 25- The philosophy of "positivism" discussed by Mr. Barton amounts to the introduction of the Enlightenment's refutation of absolutes into our system of jurisprudence.
- 26- This is a critical compartment in the overall effort by Lucifer to incorporate Enlightenment thought into the souls of those who populate Client Nation America.
- 27- When history is viewed from the standpoint of the Invisible War and the Prosecution's rebuttal phase of the appeal trial of Satan then certain conclusions may be drawn.
- 28- For example, the introduction of Islam in the seventh century was a satanic counterattack against first-century Christianity. The introduction of Enlightenment thought in the seventeenth century was a satanic counterattack against the protestant Reformation of the sixteenth century.
- 29- Such exercises are major compartments in Lucifer's global conspiracy to centralize all power under his supervision. This is an effort that is stymied by the presence of the Holy Spirit but this does not in any way discourage the effort.
- 30- Before going further in our study it is important to first describe Lucifer's global conspiracy and then document how and why it is impossible for him to pull it off.

VII. Lucifer's Global Conspiracy: Its Aspirations & Its Failure:

- 1- In July 1990 I began a study entitled *The Biblical View of Civil Disobedience*. This study took up the problem of Lucifer's global conspiracy and then documented the reasons he would be unable to accomplish this objective both in the Church Age and even in the Tribulation.
- 2- The introductory remarks are pertinent to our study for they give us the proper perspective on the futility of any conspiracy whether it is of Luciferian or human design.

Griffin, Joe. *The Biblical View of Civil Disobedience*. Sermon notes presented at Grace Doctrine Church, Chesterfield, Missouri, July 3, 1990, Lesson 1, 2-4:

Satan's goal as ruler of the world is to gain complete and total control of all governments. His stated objective in his revolution against God in eternity past was, "I shall be like the Most High." (Isaiah 14:14) Since the fall of man in Eden, Satan has undertaken the objective of bringing all human governments under his dictatorial control.

It is Satan's belief that he can institute a perfect environment through his control of human beings. Thus, in order to gain control of the human species, he must centralize all government into one entity. Once accomplished, he will then physically possess a certain individual who will emerge as the dictator of this global government secretly promoting Satan's nefarious schemes.

Consequently, we should note a principle of application: All movements which deemphasize nationalism, patriotism, and indigenous cultures are a part of this satanic conspiracy. Without exception, such groups and organizations and the people who support them play their part, we hope unknowingly, in the promotion of Satan's plan for world domination. Nevertheless, their support is no less effective.

Further, any Christian group or organization which justifies the violation of law for the purpose of gaining some high moral objective has been lured into participating in Satan's insidious schemes. All revolutions, coups d'état, and anarchies justify their overthrow of authority from the flimsy motivation of moral indignation.

Many conservatives who observe the rapid drift toward globalist socialism are quick to accuse certain liberal organizations as forming a conspiracy dedicated to the merger of the United States into this international montage. I reject this suggestion based on the principles of Scripture. The human mind is incapable of organizing the mechanics of a global empire much less supervising its administration. However, demon possessed people and those under the control of demon influence can be coordinated on an international scale to bring about the results seen [in the Tribulation] in Revelation 13.

Please understand then that there is a conspiracy but that conspiracy is Satanic and demonic, not human. Admittedly, humans are used and they are manipulated to bring about Satan's desired ends as the ruler of this world. However, man, left to his own devices, is not capable or talented enough to pull off such a prodigious undertaking. World conquest takes genius organization and leadership dynamics on a higher level than human mentality permits.

Satan is described in Ezekiel 28 as *the* genius mentality of the entire angelic creation. There *is* a global conspiracy but the lightweight mentalities associated [with human organizations] simply are not capable of pulling it off. They are simply dupes who, at most, make up only small regiments in a world-wide system called *cosmos diabolicus*. It is Satan, an angel of cherub rank known as Lucifer, who directs this international conspiracy.

Therefore, we need to understand that there is a conspiracy but it is not of human design or power. It is satanic and thus invisible and insidious. To isolate your attention on one specific human organization is to ignore the principle of "compartmentalization." This is a procedure used by our military to insure the security of an operation. Those involved are given only enough information to execute their portion of the project, no more; no less.

If one participant were to leak information the sum total of his knowledge would not be enough to jeopardize the success of the entire operation. When all parties fulfill their portion of the project, the operation runs smoothly. But only one individual knows the overall picture. This person is the one who devises the plan, determines who will execute which portion of the plan, and then decides who does what and when they will do it. Such is the procedure used by Satan in his indefatigable march toward global domination.

- 3- In order to advance his objective of a one-world government, Lucifer must convince human beings to participate toward that end.
- 4- By means of demon possession and demon influence he promotes the possibility of a perfect environment, world peace, and human equality through man's efforts.
- 5- To accomplish these ends Satan co-opts certain individuals who have the talent and ability to convince others that the earth and its population can be brought into a state of perfection. In essence, it is a satanic effort to convince mankind that he can recreate the Garden of Eden or legislate the Millennium.
- 6- His spokesmen have the duty of convincing as many as possible that this is doable. Whatever effort promotes the desired end is fine with Lucifer: the end justifies the means.
- 7- Therefore, he is complicit in all efforts by special interest groups, ideologues, or fanatics of various stripes who mount crusades to save the animals, preserve the natural resources, or eliminate war, to name a few.
- 8- Each of these notions is praiseworthy. Animals should be protected and cared for but this should not be taken to such an extreme that the welfare of human beings is compromised. Natural resources should be used judiciously but some contend that future generations must be protected against their exhaustion when evidence is clear they are abundant. Warfare should be avoided at all cost but when freedom is challenged and innocents are slaughtered then it is the duty of a responsible government to wage war.

- 9- But these are compartments and those who promote them are compartmentalized into the various nicks and crannies that make up Lucifer's scheme.
- 10- It must be stressed that the objective of the conspiracy—a global government controlled by a Satan-possessed dictator—is impossible to accomplish.
- 11- This is rendered impossible during the Church Age by the presence of the Holy Spirit who indwells all believers and restrains the progress of the conspiracy until the Rapture. The “restraining ministry” of the Holy Spirit is revealed in 2 Thessalonians 2:1-8.
