54. From these verses we encounter the mental disposition which produces evil in the souls of men. Several principles regarding this mind-set are important to note:
- (1) Evil is the policy of Lucifer as the ruler of this world.
  - (2) Evil consists of ideologies that seek to create a system of pseudo good designed to recreate the perfection of Eden or legislate the perfection of the Millennium.
  - (3) Evil is expressed by human viewpoint and human good and embodies all the failed efforts to improve a fallen world absent any dependence on establishment principles or divine viewpoint.
  - (4) Evil is not a synonym for sin. Sin is the violation of a biblical mandate. Evil is the expression of human good that seeks to improve man's environment by means of human intelligence.
  - (5) The most intelligent creature ever created by God is Lucifer who, as a result of the fall of man in the Garden, is presently the ruler of this world.
  - (6) If Lucifer is not capable of ruling this world, then neither can man.
  - (7) Evil is a system of erroneous thought. When it is in ascendancy, historical downtrends are in evidence.
  - (8) When evil is left unrestrained and metastasizes in the souls of the people, it results in destruction of the society.
  - (9) Doctrine is the representation of truth expressed by God in Scripture. Evil is the representation of the lie expressed by Lucifer through all other media.
  - (10) This means that the human soul is the battleground on which the angelic conflict is waged.
  - (11) Consequently, there are two categories of thought involved: **(1)** divine viewpoint is thinking doctrine and **(2)** human viewpoint is thinking human good and evil.
  - (12) When doctrine is the prime source of thought, the believer is spending maximum time inside the bubble of the divine dynasphere.
  - (13) When evil is the prime source of thought, the believer is spending maximum time inside the labyrinth of the cosmic systems.
  - (14) Sin and evil are not synonymous terms. Recovery from sin is instantaneous through confession alone to God alone as expressed in 1 John 1:9.

- (15) Recovery from evil is a long and arduous process of renovating the soul described in Romans 12:2.
  - (16) Evil is expressed in a number of ways. For example, it distorts the laws of divine establishment and is in open opposition to principles of divine viewpoint.
  - (17) To steal possessions from another person is a sin; to acquire them through legislative decree is evil.
  - (18) Unorthodox sexual behavior is a sin; unorthodox marriage is evil.
  - (19) Telling a lie to someone is a sin; to communicate the lie to the masses is evil.
  - (20) Evil also encompasses the organized effort to impose human viewpoint on an entire population at the expense of personal freedom and the violation of individual rights.
  - (21) This is expressed by ubiquitous government involvement into free enterprise, religion, the economy, gun ownership, medical care, philanthropy, and foreign affairs.
  - (22) Evil consists of targeted attacks on God, Christ, the Bible, churches, doctrine, the divine institutions, and traditional standards.
23. The arguments in the appeal trial of Lucifer include efforts by the Prosecution to fulfill the four unconditional covenants to Israel and by the defence to establish a man-made Millennium.
24. God knows the end from the beginning and has decreed precisely how all of human history will transpire.
25. Biblical prophecy is not a look into the future and predicting what will occur, but rather a look back from the future and reporting what does occur.
26. The certain fulfillment of these promises make Lucifer's efforts fruitless, therefore the continued pursuit of his strategy is simply a delaying action to postpone his demise as long as possible.
27. To do this, his propaganda is directed at the souls of men. It is designed to convince as many as possible that humanitarian efforts are the solutions to man problems.
