

**Client Nation Arrogance, Origin of Historical Downtrends: Lucifer's Fifth Proclamation, Isa 14:14b; Sowell's Tenets of the Prevailing Vision; Hosea's Prophecy of National Discipline, Hos 4:1-6**

- 47) Presently, the advantage is held by the Dark Side since those of the Light have a high percentage of their ranks that are truly among the benighted – the naïve and the fools.
- 48) Ergo, we find that the United States have reached a critical point in its storied history. The phenomenal prosperity we enjoy as a people is at peril because of client nation arrogance.
- 49) Our circumstance is characterized by social degeneration, economic recession, a military stretched to the four corners of the globe, and a government controlled by devoted ideologues who profess superior ideas but are in fact useful idiots for the Dark Side.
- 50) Client nation arrogance devolves into a collectivist state in which a tyrannical government crates privileged groups to use as pawns to force the producers to provide largesse for their welfare.
- 51) The vision of the anointed can never be attained because its principles violate the immutable standards of natural law – the permanent things.
- 52) But this is what makes their ideology so dangerous – its vision can be described laconically as “an attempt to legislate the Millennium.” This is precisely what Lucifer stated he would do in his fifth proclamation in Isaiah 14:14b, “I will be like the Most High.”
- 53) But Lucifer's plan is destined to fail and therefore the Progressive's implementation of that plan will fail each and every time it is tried.
- 54) But when buying into a vision that is imagined as the cure-all for the world's woes and when the implementation of that vision is not successful, the assumed explanation is not that it was a bad idea but that the benighted have not yet been brought to heel and must be forced to do so for the betterment of all mankind.
- 55) The more Draconian the anointed's efforts become the worse the results so that at some point the entire system implodes. The natural law's system of restoring order includes individual and national divine discipline and the riding of the four horsemen of Revelation 6:1-8.
- 56) They are somewhat abstruse in spots, but Dr. Sowell's summary of the basic principles held by the anointed are worth noting:

**The central tenets of the prevailing vision can be summarized in five propositions:**

1. Painful social situations (“problems”) exist not because of inherent limits to knowledge or resources, or inadequacies inherent in human beings, but because other people lack the wisdom or virtue of the anointed.
2. Evolved beliefs represent only a “socially constructed” set of notions, not reflections of an underlying reality. Therefore, the way by which “problems” can be “solved” is by applying the articulated rationality of the anointed, rather than by relying on evolved traditions or systemic processes growing out of the experiences of the masses.

3. Social causation is intentional, rather than systemic, so that condemnation is in order when various features of the human experience are either unhappy or appear anomalous to the anointed.
4. Great social or biological dangers can be averted only by the imposition of the vision of the anointed on less enlightened people by the government.
5. Opposition to the vision of the anointed is due not to a different reading of complex and inconclusive evidence, but exists because opponents are lacking, either intellectually or morally, or both. (p. 241-42)

Perhaps even more important than the specific tenets of this vision is that these propositions are not treated as hypotheses to be tested but as self-evident axioms. Evidence is seldom asked or given—and evidence to the contrary is often either ignored or answered only by a sneer.<sup>1</sup> (p. 242)

- 57) On the other hand, what trumps the tenets of the anointed is the overriding principle that Jesus Christ controls history. Although Lucifer rules the world the Lord rules Lucifer and will not allow him to gain an unfair advantage over believers.
- 58) In fact, it is through the benevolence of a client nation that all the heathen nations are blessed. The chief manner by which this is accomplished is through missionaries who carry the gospel and doctrine to the people of these nations.
- 59) When they respond to the gospel then the grace pipeline is opened for them; the more for whom this occurs the greater their country is blessed.
- 60) In addition to this primary method of blessing, the client nation can also provide military defense, foreign aid, or necessities such as food, medicine, and sometimes reconstruction.
- 61) However, when the majority of believers in a client nation function in the cosmic systems, that nation loses its historical impact.

**Hosea 4:1** - Learn the Word of the Lord, children of Israel, for the Lord has a covenant lawsuit [an arraignment for violations of the Mosaic Law with emphasis on the Ten Commandments] against the citizens of the land, because there is no truth [אֱמֶת 'emeth] being taught [the failure of the priests to communicate the Word], no grace being applied, there is no knowledge [דַּעַת da'ath] of God in the client nation [spiritual illiteracy resulting in naïveté and foolishness].

**v. 2** - [The Lord's bill of particulars] Instead there is lying [perjury: 9th commandment], deception [unscrupulous business transactions 8th and 10th], and homicide [murder: 6th], and stealing [8th] and adultery & rape [7th & 10th]; therefore there is violence in the land [mobs, riots, civil disobedience].

<sup>1</sup> Sowell, *The Vision of the Anointed*, 241-42.

**v. 3 -** For these things the land shall mourn [ widespread violations of these commandments bring about divine discipline on individuals and five cycles of discipline on the nation ], and every one that lives in it shall loose strength along with the animals of the field and the birds of the sky, and also the fish of the sea disappear [ the effects of the five cycles on the physical and mental health of the population which also spills over into the animal kingdom ].

**v. 4 -** Do not let anyone accuse or contend against anyone else: for my case is against you priests! [ The catalyst for national downfall begins with the communicators who fail to teach doctrine. ]

**v. 5 -** Therefore, you [ Northern Kingdom ] have stumbled [ into the influence of the cosmic systems ] in the daylight [ when doctrine was being taught ], and the prophet will stumble with you at night [ during national reversionism ]; you have destroyed your own people [ see note below ].

NOTE: The KJV, NIV, and NASB end this verse with the sentence, “I will destroy your mother.” The concept here is “Motherland,” or the client nation. The subject of the verse is the Northern Kingdom which is made up of Israelites in reversionism, priests who have not taught doctrine, and a government which has not provided the proper leadership and motivation.

**Hosea 4:6 -** My nation is destroyed because of lack of knowledge [ *da'ath* ]. Because you have rejected knowledge, I will reject you from being My client nation. Since you have rejected the Law [ תּוֹרָה *torah: teaching and instruction* ] of your God, I will reject your children [ the next generation ].

- 62) Because of client nation status, Israel had inherent advantages that other nations did not possess. With these advantages she was able to not only serve the God of Israel but, when in periods of positive volition, have historical impact on other nations.
- 63) When Israel, or the Northern and Southern entities of the divided kingdoms, failed to utilize their advantages, then they lost the advantage of divine blessings which included God’s protection, provision, and resultant prosperity.
- 64) These things are also true of Gentile client nations of which the United States is the latest vintage. Believers who live in a client nation have these same advantages on a personal as well as a national level.
- 65) As a conclusion to our study of client nation arrogance we observe several axioms or postulates that define these advantages.
